

A photograph of a man and a woman embracing and laughing joyfully. The man is wearing a dark blue sweater, and the woman is wearing a white sweater. They are both smiling broadly, showing their teeth. The background is a soft, out-of-focus indoor setting.

The logo for SUPERBA RX features a stylized blue icon of three vertical bars of increasing height to the left of the text. The text 'SUPERBA' is in a large, bold, black sans-serif font, with a small 'TM' trademark symbol to its upper right. Below 'SUPERBA' is the text '(Butea superba)' in a smaller, italicized, black sans-serif font. To the right of '(Butea superba)' is the text 'RX' in a very large, bold, black sans-serif font, with a diagonal slash through the 'X'.

SUPERBATM *(Butea superba)* RX

**The only Natural Male Enhancement
Pill Proven effective in Published
Peer-Reviewed Human Clinical Trials.**

**There's no other
Natural Male Enhancement
Pill Proven to Work
in Published Human
Clinical Trials.**

**You can rely on Superba Rx™.
Why?
Because it is documented
to work.**

Ask your doctor if Superba Rx™ is right for you,
then visit us on the web at www.superbarx.com to learn more.

Superba Rx™ is indicated and has been proven effective for the improvement of male erectile function which includes increased erection size, revitalized sexual function, increased sexual stamina, enhancement sexual pleasure and frequency and incidents of erections as well as the duration time of maintaining an erection. While *Superba Rx™* is a natural compound and has no known side effects, remember that not all compounds are for everyone. While the body of research on *Superba Rx™* when taken as directed by otherwise healthy men poses no health risks either short-term or long-term, those with questions or concerns are advised to consult with their healthcare practitioner(s) before taking.

Detailed Summary Information about Superba Rx™.

Superba Rx™ (*Butea superba*) capsules for male erectile function. Read this information carefully before taking Superba Rx™. This information does not take the place of talking with a physician or counselor. If you have any questions regarding taking Superba Rx™, or if you are not sure about something related to natural male enhancement or your erectile function, ask your healthcare provider.

What is Superba Rx™?

Superba Rx™ is an O.T.C. (over the counter) supplement which aids men in natural male enhancement and erectile function. Superba Rx™ has been proven effective in a published, peer-reviewed randomized double blind, placebo controlled human clinical trial at significantly improving male erectile function. Superba Rx™ utilizes a proprietary formula developed by the world's leading authority on *Butea superba* Dr. Cherdshewasart and is cultivated and processed using his patented method of pro-

cessing the tubers of *Butea superba* from the Lampang province of Thailand where they are collected, cleaned, sliced into pieces, completely dried in a hot air oven, ground into a fine powder, passed through 100 mesh sieves prior to its inclusion in Superba Rx™ capsules.

How Can Superba Rx™ Help a Man?

Superba Rx™ provides a wide range of benefits for a man's sexual function, performance and pleasure. Superba Rx™ contains a high cAMP phosphodiesterase inhibitor activity which is directly related to corpus cavernosum vasodilation which provides the mechanism by which all of the benefits are achieved. No other natural compound can provide evidence of such ability and none can come close to proving the results men taking Vasotrex experience. The benefits on EQ include: an increase in the size, fullness, firmness of erections. Increase sexual enjoyment and pleasure, enhanced erectile function, increase sexual desire, energy and stamina as well as the increased duration of erections.

- > In a landmark human clinical trial over 82% of the men in the comprehensive 90 day study improved their erectile function. Significantly, half of these men recorded a dramatic improvement in their sexual function.
- > Studies have shown Superba Rx™ shows incredible improvement in the newest area of sexual health men are most concerned with - Erection Quality (EQ).
- > The published human clinical trial showed sexual enjoyment and pleasure tripled, recording a staggering 298% increase in sexual enjoyment and pleasure.
- > Superba Rx™ is completely safe and natural and has been approved to be dispensed without requiring a prescription.

Follow these instructions for taking Superba Rx™.

Take one Superba Rx™ capsule a day for the first three days with a glass of water or juice. (If after three days your system does not tolerate Vasotrex discontinue its use.) After the third day take two Superba Rx™ capsules daily with a glass of water or juice. Do not eat 30 minutes before or after you take Superba Rx™. Do not take Vasotrex with hot liquids such as coffee or tea. To achieve the benefits documented in the landmark clinical trial you are recommended to take Superba Rx™ for the full 90 days. After 90 days it is recommended that to continue to experience the benefits, take one Vasotrex capsule a day or two capsules a day three days a week.

How should Vasotrex be stored to ensure maximum effectiveness?

Store Superba Rx™ in its original container in a cool, dry place, away from excessive heat, light and moisture.

INSIDE THIS INFORMATION GUIDE:

We at *Superbalife International*, have prepared this in-depth guide to tell you why *Superba Rx™* is proving to be superior to all other natural products indicated for the safe and effective solution to improving all areas of natural male enhancement.

It has been proven in clinical studies that when taken daily the proprietary compound in *Superba Rx™* improves overall erectile function in close to 85% of men, even when all other options have failed. Developed by an award winning scientist, *Superba Rx™* is winning praise from men of all ages across America who are seeing tremendous results as a result of taking *Superba Rx™* as directed. Only you can assess the benefits and decide if *Superba Rx™* is right for you. Hopefully this guide will help you in your decision making process.

Find Out How a Revolutionary Compound Can Help You ...

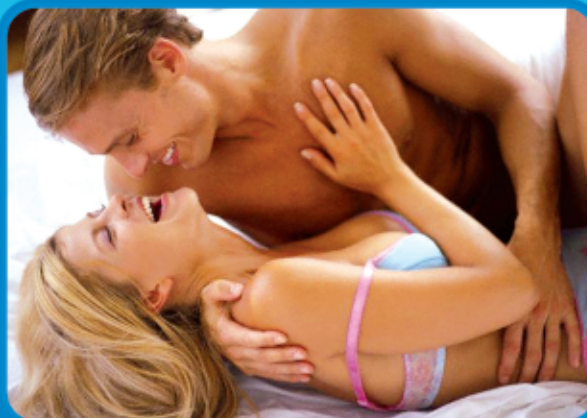

Increase Erection Size and Function Like Never Before.

Everyone is looking for it. It's like the search for the Golden Fleece or the fountain of youth - a way to increase sexual performance and pleasure. Companies have been searching endlessly around the globe for any evidence or hope that some ingredient could provide an alternative to prescription drugs, free of potentially dangerous side effects and long term pitfalls that accompany prescription drugs. While many have tried to identify such a compound and develop such a product, none has been able to do so until now, with the advent of *Superba Rx™*.

New natural products are a dime a dozen. They're everywhere. Companies are always offering up new products claiming to have "the latest" breakthrough to super sex and massive erection size increases. But the one thing that all of these products have in common is that none of them have human clinical trials to back up their claims. Independent clinical research is the ultimate test for a natural supplement. It tells the truth and only the truth. You can bet your last dollar that companies that bring new male enhancement products to the market haven't financed proper clinical studies to prove their products work. *Superbalife International*, on the other hand, was formed with the corporate philosophy of bringing to the market only lifestyle enhancing products that have been proven effective in human clinical trials. Our countless hours of examining research around the globe, reviewing studies and data, and evaluating the potential of natural compounds ultimately led us to Thailand.

We formed an exclusive alliance with the world's leading authority on *Butea superba* - Dr. Wichai Cherdshewasart. He has proven in numerous clinical trials that this natural compound is the biggest scientific breakthrough in history for natural male enhancement. The Bangkok Post newspaper reported that over 20 tons a month are being shipped to Japan. Well, the great news is that we now have here in America this proprietary compound which from all reports and clinical trials really is that elusive "magic bullet" every man wants. In this brochure will tell you all about this amazing development and how it can greatly improve the quality of your sexual life no matter what your age and no matter if nothing has worked for you in the past.

HOW GOOD IS YOUR SEX LIFE?

Take a moment and honestly answer a few of these questions.

Would like to have great sex regularly?

Are you embarrassed by the size and power of your erections?

Would you like to experience spontaneous natural erections any time?

Do you wish your erections were larger?

Do you ejaculate too quickly during intercourse?

Are your erections as rock hard as they used to be?

Are you looking to experience unbridled pleasure during sex?

Are you looking to improve your E.Q. (erection quality)?

If you said yes to any of these questions then there is good news for you. Read and discover why *Superba Rx™* can help you improve your erectile function in many ways, safely and naturally.

What is Superba Rx™?

Superba Rx™ is a natural pill designed for a variety of male erectile enhancement issues. It contains a key proprietary natural compound called *Butea superba*, which has a unique molecular structure that allows it to inhibit PDE 5 production in your body allowing for much larger more sustainable erections. PDE 5 is an enzyme that inhibits blood flow to the penis, leading to penile deflation. When taken daily *Superba Rx™* has been proven to dramatically improve all aspects of Erectile Quality.

Increased Sexual Desire

Increase Erection Size

Enhanced Sexual Pleasure

More Forceful Orgasms

Greater Semen Production

Accelerated Frequency of Intercourse

Harder, Longer-Lasting Erections

Increased Sexual Stamina and Energy

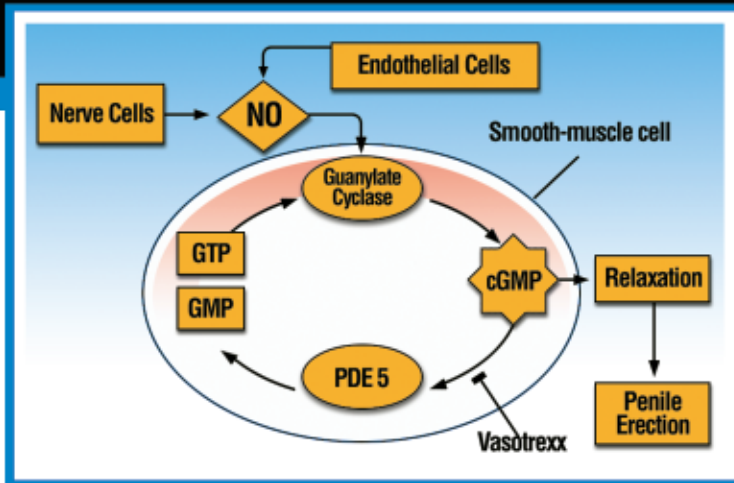

Restored Sexual Ability

Increase in Testosterone Production

How does Superba Rx™ work?

Superba Rx™ works primarily by increasing the relaxation capacity of the corpus cavernous smooth muscles (which are the two chambers in the penis) via cAMP phosphodiesterase (PDE5) inhibition and it also is believed to act on the brain, triggering the improvement of the emotional sexual response. PDE 5 is often called the “erection killing” enzyme in your body. It’s sole job is to deflate erections. Men who have trouble achieving and maintaining an erection can be attributed to the PDE 5 enzyme not being neutralized. The longer the PDE 5 enzyme can be neutralized the longer erections last, the easier it is for erections

to occur and the more the chamber of the penis can expand thereby maximizing the size, firmness and overall erectile quality.

The physiological process of an erection begins in the brain and involves the nervous and vascular systems. Neurotransmitters in the brain are the chemicals (e.g. Nitric Oxide) that initiate an erection. Physical or psychological stimulation (arousal) causes nerves to send messages to the vascular system, which results in significant blood flow to the penis. Two arteries in the penis supply blood to erectile tissue and the corpora cavernosa, which become engorged and expand as a result of increased blood flow and pressure. Because blood must stay in the penis to maintain rigidity, erectile tissue is enclosed in fibrous elastic sheathes (tunicae) that cinch to prevent blood from leaving the penis during erection. When stimulation ends, or following ejaculation, pressure in the penis decreases, blood is released, and penis resumes its normal shape. Superba Rx™ works to expand your corpora cavernosa to the maximum size physiologically possible.
